PORTFOLIO

Ferdian Firmansyah

Software Engineer | Backend Developer

Laravel · PHP · MySQL · REST API

About Me

Backend-focused Software Engineer

I build and maintain ERP/TMS systems with Laravel and PHP at De Vivace Website Design and Development, from requirements analysis and solution design to implementation, debugging, and maintenance. I apply MVC, Service-Repository, clean code, and SOLID principles, with experience in REST APIs, MySQL optimization, and asynchronous processing.

2020 – 2024

D4 Software Engineering

Banyuwangi State Polytechnic
GPA 3.84 / 4.00

2018 – 2020

Science (MIPA)

SMAN 1 Banyuwangi

Experience

CURRENT · APR 2025 – PRESENT

De Vivace Website Design and Development

Programmer / Software Engineer

- Laravel ERP/TMS development and maintenance
- REST API, MySQL optimization, queues, events, and broadcasting
- Audit log, refactoring, and performance fixes
- Alpine.js frontend; teamwork with programmers and project managers
